

Band of Brothers Boot Camp

“...breath entered them and they stood on their feet a vast array.” Ezekiel 37:10

Sons. Brothers. Husbands. Fathers.

Men. We want to be courageous, passionate, powerful, alive and free. We want to live the adventure, take risks and dare mighty things. We want to make sure our lives count for something - for someone. We want to play an irreplaceable role in the epic adventure for which we have been created. We want to live in a God-breathed wholeheartedness.

Unfortunately, however, we typically feel hopeless, helpless and harmless. We seem to have somehow lost heart. Life has in many ways crushed our dreams and damaged our desires. Somehow we are missing the life for which God has created us.

We invite you to join us on a journey into God-breathed wholeheartedness.

April 12-15, 2012 Ness Lake, Prince George

Join us for an adventure that will change your life.

Through teaching sessions, films, guided periods of reflection and journaling, we have designed something far more than a retreat - it's a expedition of the heart. It's time to recover your masculine soul.

Here's what others have had to say about the Boot Camp...

“...touched my heart in areas that I did not know even existed”

“I have found my heart, how to recognize God's words in my life.”

“God spoke to me in ways that He never has before”

“I am truly leaving here a changed man”
